

A Series Walkie Straddle Stacker

with capacities of 2,500lbs

The World of Hangcha
SINCE 1956

INDUSTRIAL STRENGTH STACKING

A series walkie straddle stacker is newly developed logistics handling equipment developed by Hangcha for the North American market. The AC drive control technology provides advanced performance, comfortable operation, safe and reliable, low maintenance costs. It can be use for loading and unloading in warehouses, supermarkets and workshops.

Appearance

- / A series walkie straddle stacker applied professional industrial design, stream lines, and compact, and fully ergonomic consideration, in line with the latest design trends.
- / Applied steel stamping and injection molding processes for front and back guard, which is robust, durable, and also environmental compliance.

Performance

- / AC travelling motor applied to provide excellent acceleration, good gradeability, low heat, no carbon brush and maintenance free.
- / The latest CURTIS AC control system provides accurate and stable control to work more efficient.
- / The applied CAN-BUS structure can offer more reliable and faster command access.
- / Regenerative brake and slope anti-slide function are offered by this truck.

Reliability

- / Water-proof plugs and connectors applied to provide a reliable protection to electric system.
- / Using non-contact proximity switch, it can provides long life and reliable operation.
- / Top quality hydraulic power unit applied to provide low noise, low vibration, smooth lifting and landing reliable operation.
- / Punch-formed forks to provide more strength and tip guide to provide higher efficient operation.
- / The power plug (Andersen) is fixed on the truck body to avoid damage from battery installment.

Comfort

- / Simple and beautiful tiller designed to operate all functions easily even by one hand.
- / Displayed turtle speed function applied to move slowly and helps to stack goods in narrow spaces.
- / Turtle speed function can keep the slow move when the tiller is vertical direction, the truck can stack goods even in narrow space.
- / Optimized design structure to offer a good visibility and easy entrance of the pallet.

Built-in charger and maintenance free battery

The compact body and big rounded design provide an ideal operation in limited space, and the wedge designed chassis greatly increases the passing ability

Pump motor controller offers proportional lowering, it can provide low noise, precise control and stable lower good

Fixed Straddle Baselegs (Inside Dimension in 4" increments from 38" to 50"); Adjustable baseleg optional to fit a wide range of pallet sizes

Standard features

- / 24 volt electrical system
- / CAN BUS communication
- / Curtis AC Controller
- / 7.8" Battery Compartment
- / PU drive tire
- / Maintenance-Free battery 150Ah
- / Built-in charger
- / SB-175 battery connector (red)
- / Battery disconnect handle
- / Key switch
- / Multi-function meter
- / Electric horn
- / Upright-tiller creep speed running
- / PU load wheel
- / Single load wheel
- / Load Backrest height 40"

Safety

- / Travel speed will be automatically reduced after fork lifting 500mm.
- / The power plug is fixed on the truck body to avoid damage from battery installment.
- / The applied slope anti-slip function ensures the safety of the operation.
- / The emergency button on the tiller head can effectively avoid the harm to the driver.
- / Soft landing system applied to offer protection to the loads from damaging.

Maintenance

- / AC motor with no cabin brush, don't need maintenance, lower cost.
- / Integrated battery indicator, hour meter and self-diagnostic instrument are all easy for maintenance.
- / Rear cover can be completely open, operator can see all the components, so the maintenance is very convenient.

Optional equipment

- / Maintenance-Free battery 225Ah
- / Industrial battery 240Ah
- / Load Backrest
- / PIN code access
- / Adjustable-width base legs
- / 2-Stage Mast 78-141in(2-3.6m)
- / Mast shield of PC plate
